Health Data NY-Benefits

Prevention Agenda Partner Contact Information

- Provides interested parties, including health providers, current and potential health partners and the general public information about the areas of the Prevention Agenda that health partners are working on in their communities
- Provides contact information for current partners for potential use by interested parties, including health providers, current and potential health partners and the general public.
- Interested parties can utilize the data set to contact the Department of Health's contracted partners to learn more about their organizations, their involvement with prevention activities in the community, and to inquire about how to get involved in the effort as well.
