Health Data NY

Field Name	Definition
Measurement Year	Represents the evaluation year.
Health Home Name	Name of Health Home certified by NYSDOH.
Health Home MMIS ID	A unique identification number for each Health Home.
Measure Description	Description of quality measure.
Measure	Name of quality measure.
Age Category	Represents the age grouping that each result belongs to.
Member Months	Number of member months in Medicaid for enrollees meeting denominator criteria
Rate	The rate is the numerator divided by the denominator, by 1,000 member months. If number of enrollees in the denominator is less than 30, small sample size (SS) is reported.
Level of Significance	Indicates whether the rates are in the 90 th percentile or above, 10 th percentile or below or sample size too small to report (denominator less than 30).
