

Managed Long-Term Care (MLTC) performance data - Research Questions

- How do the Nursing Facility Level of Care (NFLOC) mean scores compare across plans?
- How do the rates for Activities of Daily Living (ADL) measures compare across plans?
- Within a plan, which measures demonstrated the most need for improvement compared to other measures?
- How do enrollee's flu and pneumococcal vaccination rates compare across plans?
- How does plan performance in one component area (such as bathing) compare to the overall NFLOC score for that health plan?
