Data Dictionary: Prevention Agenda Tracking Indicators - County Trend and Most Recent Year Data

Note: This file is not in fixed-width format. Field size is set to accommodate the longest entry in any given data column.

Field Number	Field Name	Field Size	Format	Format note	Description
1	County Name	35	Alphanumeric	Text	Full county name
2	Priority Area Number	1	Numeric	Integer	Prevention Agenda priority area ID number
3	Priority Area	120	Alphanumeric	Text	Full title for the specific Prevention Agenda priority area
4	Focus Area Number	1	Numeric	Integer	Prevention Agenda focus area ID number (focus area within priority area)
5	Focus Area	120	Alphanumeric	Text	Full title for the specific focus area
6	Indicator Number	8	Alphanumeric	Text	Unique indicator identifier
7	Indicator	200	Alphanumeric	Text	Full text description of the health tracking indicator
8	Event Count/Rate	12	Numeric	Integers with commas or numeric with decimal	Event counts for rate computations (numerators) or the high-risk group rate for ratio computations
9	Average Number of Denominator/Rate	12	Numeric	Integers with commas or numeric with decimal	Denominator for rate computations or the reference group rate for ratio computations
10	Measure Unit	12	Alphanumeric	Text	Result type, rate or percentage
11	Percentage/Rate/Ratio	12	Numeric	Numeric with decimal	Numerical indicator value estimate
12	Lower Limit of 95% CI	8	Numeric	Integers with commas or numeric with decimal	Lower limit of 95% Confidence Intervals for percentage estimates from survey data
13	Upper Limit of 95% CI	8	Numeric	Integers with commas or numeric with decimal	Upper limit of 95% Confidence Intervals for percentage estimates from survey data
14	Data Comments	20	Alphanumeric	Text	Indicate when the county data is unstable or suppressed due to small number of events

NEW YORK STATE OF OPPORTUNITY. | Department of Health

Field Number	Field Name	Field Size	Format	Format note	Description
15	Quartile	20	Alphanumeric	Text	Quartile(s) that indicator estimate falls within
16	2024 Objective	12	Numeric	Numeric with decimal	Target value for the health tracking indicator, as specified by the Prevention Agenda
17	Objective Region	12	Alphanumeric	Text	Region of NYS that the objective pertains to
18	Data Years	100	Alphanumeric	Text	Time period for raw data used in indicator computation
19	Data Source	300	Alphanumeric	Text	Data sources for the raw data used in indicator computation
20	Mapping Distribution	1	Numeric	Integer	Grouping of county rates for color shades in the map (value of "1" indicates the best group and "3" indicates the worst group)
21	Location	30	Alphanumeric	Lat/Long coordinates separated by a comma, within parentheses	Lat/Long decimal degree coordinates for the region covered by the indicator, for use in mapping
